

STONY PLAIN SUN.

VOLUME SIX.

STONY PLAIN, ALBERTA THURSDAY JUNE 17, 1926

Whole Number 306

Choose one of the three following Plows for breaking that suits your requirements best—each one of them is the leader in its class:

Cockshutt Y16 or Y18 Heavy Walking Plow;

**Cockshutt Truck Brush Breaker
Cockshutt J G C Sulky.**

R. Speakman. Phone 54.

**A PUBLIC MEETING
IN THE INTEREST OF**

F. W. LUNDY

**CONSERVATIVE CANDIDATE,
WILL BE HELD IN**

**Wudel's Hall, Stony Plain,
AT 8 P. M. ON**

SATURDAY, JUNE 19th

**Addresses by the Candidate, F. W. Lundy;
R. B. Wells, Edmonton; and others.**

Issued by: Conservative Association, Stony Plain

**U. F. A. MEETINGS
of Candidate Washburn:**

Thursday, June 17. Blue Berry
Friday, June 18... Spruce Grove
Saturday, June 19.. Garden Valley
Monday, June 21.. Sand Hills
Tuesday, June 22.. Carvel
Wednesday, June 23.. Mewassin
Thursday, June 24.. Bright Wood
Friday, June 25.. Rocky Rapids

Issued by U. F. A. Local, Stony Plain.

Duffield Annual Picnic!
(Bigger and Better Every Year),
WILL BE HELD ON

SATURDAY, JUNE 26th,

Starting at Twelve o'Clock Noon.

THERE WILL BE A

Full Program of Athletic Events,
including Horse Racing, Baseball,
Basketball, Tug-of-War, etc.

All Kinds of Refreshments on Grounds.

LOCAL NEWS.

Mr Muri McKinlay was a business visitor to Edmonton on Tuesday.

Mr Speakman motored up to Wabamun on Tuesday.

Grain dealers are holding a picnic in Edmonton on Saturday next, June 19, and the 3 local elevators will be closed in the afternoon on this day.

Patrons at the movie show Monday night registered dissatisfaction at the substitution of another picture for the one which the bills indicated was to be shown.

The attention of voters is directed to the notice printed on another page giving official directions as to the use of the Preferential ballot.

Mr R Smith of Red Deer is visiting his brother-in-law, Mr Jas Smith.

Mrs D W Pattie of Rocky Mountain House, is visiting this week in Stony with her sister, Mrs Hy Oppertshanser.

Mr C F Foulds, Wetaskiwin, paid Stony a visit over the week end.

Miss Muriel Robertson was a week-end visitor with Mrs R M Outway.

John and Wm Barth, who are now in business in Millet, motored up to Stony on Sunday.

S H Carter and F Steinman on a publicity campaign for the Edmonton Exhibition, were in Stony on Tuesday.

Organizer McLaughlin of the Liberal Headquarters, Edmonton, was in Stony on Friday.

Dr Walton has moved his downtown office to the place formerly occupied as a barber shop, next to the phone exchange.

Grade 9 exams' commence tomorrow (Friday).

On Saturday last a 2-year-old heifer belonging to Mrs C Goerz was struck and killed by a freight engine one mile east of the local station.

Sam Zucht took his ball-tossers up to Duffield on Sunday, engaged Mr Pidgeon's outfit, and repeated the good game in Stony seen in Stony a week ago. Score: Stony 7, Duffield 9. Stony's battery—Chesser & Mohr p, Lory c, Duffield—Roidy p, Brass c.

Secretary E Heichen is arranging a football game, with the good team at Millet.

The practice nights for football players now are Wednesday and Saturday, at seven o'clock.

Owing to the fact that rural schools will be required for pulling places on June 28th, the date of the provincial elections, the dates of the Departmental examinations have been altered. The examinations set for Saturday, the 26th; Tuesday, the 29th; and Wednesday, the 30th, remain as previously announced; those set for Monday, June 28th, will be held on Friday, June 25th, while those set for other dates will be held one day earlier, at the hour previously announced.

use Red Rose Orange Pekoe Tea

Progress Of The C. N. R.

The most encouraging reading matter to be laid before the people of Canada for many years was that setting forth the complete operating results of the Canadian National Railways for the year 1925, supplemented a few weeks later by the statement made to Parliament by Hon. C. A. Dunning, the new Minister of Railways. The Canadian National Railways, and its predecessors in the various separate lines which now constitute the National system, have for so long been a financial burden on the Canadian taxpayer, that it is a distinct relief to read the really splendid showing of the system last year, and the further betterments already reported for 1926.

The net earnings of the Canadian National last year were nearly double those of 1924, being \$22,561,414 as compared with \$17,244,451. This substantial betterment was brought about in two ways, by an increase of nearly ten million dollars in operating revenues, and a decrease of over five and one-half millions in operating expenses. Net earnings in 1925 were twelve times what they were in 1922.

Supplementing this annual statement for 1925, Mr. Dunning was able to inform Parliament that for the first four months of 1926, net earnings of the Canadian National amounted to \$9,689,217, a record for any similar period in the history of the amalgamated system, and the Minister was therefore in the happy position of being able to say that "given a reasonably good harvest and freedom from traffic losses due to labor difficulties it may be possible for the National Railways to pay this year their entire interest charges due the public."

That is to say, if present conditions are maintained, and the promise of the 1926 crop realized, the Canadian people this year will not be called upon to make good any deficit out of taxes. For the first time, too, the Canadian Government ships, now operated by the Canadian National management, showed an operating profit during the first four months of 1926. The National Railways are carrying cargoes to the ships, and the ships are bringing traffic to the railway.

Sometimes operating betterments are shown by cutting down expenditures in the provision of needed equipment and in maintaining a railway fully up to standard. In the case of the Canadian National, however, it is satisfactory to learn that this is not the case. On the contrary, the physical condition of the system has been steadily improved and better, not less satisfactory, service provided.

As pointed out in a recent article, it was this improvement in Canadian National finances which was an important factor in enabling the Finance Minister in his recent budget to lower the Income Tax, return to two-cent postage, wipe out the receipt tax, and reduce the Customs duties on certain types of automobiles. Thus, not indirectly, but directly and immediately the people of Canada enjoy a measure of tax relief because of the success being achieved by Sir Henry Thornton and his co-workers in the management of the Canadian National.

If the expectations of Sir Henry and Mr. Dunning are realized this year—and present indications are that they will be—then further taxation relief may be looked for, or, as an alternative, a start made in the direction of reducing the enormous war debt which the Dominion now has to carry. Either step, of course, would mean a further reduction in the financial burden and obligations of the Canadian people.

Finally, it is a matter of particular national gratification that this steady and even rapid improvement in the Canadian National has been brought about without doing any injury whatever to Canada's other great national railway, the Canadian Pacific. The C.P.R. also reported a very successful year in 1925, far better than was expected during the earlier months of that year, and thus far in 1926 it continues to further improve and strengthen its position. Much as Canadians desire to see the Canadian National prosper and more than pay its way, they are equally desirous of seeing the C.P.R. grow and prosper. There is no wish to advance the welfare of one system at the expense of the other. Both are national systems of the true meaning of the term, and both can and are rendering services of immense value to the Dominion.

With increasing immigration, a general renewal in all lines of industry and commerce, and given a good crop throughout the country this year, the future of Canada's railways is encouraging.

Ding—"What kind of a doc is Jones?"

Ling—"I thought he was an eye doctor (ill) I got his bill; then I found he was a skin specialist."

Lie's journey is so tiresome that a man is out of breath when he reaches the end of it.

Husband (terribly)—Can't you remember where I left my pipe? Wife

—No, dear. Husband—Bless me, that just shows the forgetfulness of women.

A clever girl is one who knows what you do mean when you say things you don't mean.

Children Cry for

MOTHER: Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulence, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of **Dr. J. C. Williams** Absolute Harmless—No Opium. Physicians everywhere recommend it.

Stage Historic Pageant

Edmonton Exhibition to Have a Novel Attraction This Year
Hon. Frank Oliver will open Edmonton exhibition this year, July 12. The board of management felt that it was peculiarly fitting that this year should fall to Mr. Oliver in view of the fact that this year marks the 21st anniversary of the creating of the province of Alberta with the early history of which he had so much to do. The Old-Timers' Association, 900 strong, is taking active interest in the historic parade, which is the exhibition's method of marking the anniversary and has moved the original building of the Bulletin, Edmonton's first paper, to a place beside their club house on the exhibition grounds. The pageant will be officially known as "The Coming of Age," and will have 15 episodes.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liment Gives Such Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues, and brings a warm, comforting relief at once. No Liment compares in pain relieving power with Nerviline. For the minor aches and pains that are always kept handy on the shelf. Use it for Rheumatism, Lumbago, Neuralgia and 35 cents at all dealers.

Money in Potatoes

Owing to the abundance of potatoes in Canada and the United States, farmers in the Sault Ste. Marie district have been marketing their potato crop at good prices. Recently a farmer in the township of Laird sold \$1,000 worth of potatoes at \$2.50 per bag.

His Back Has Not

Bothered Him Since

Why Mr. Marchbank Knows Dodd's Kidney Pills Are Good

New Brunswick man is enthusiastic over the remedy that brought him relief—Dodd's Kidney Pills. "I was 'Suxus,' N.B. (Special). 'My trouble first started from a strain and bothered my back so much. I was laid up most of the time. I saw several doctors but they did me no good. I took about six to ten boxes of your Dodd's Kidney Pills and my back has not bothered me for over two years now. You may publish this if you wish.'"

This statement was sent to us by Mr. H. J. Marchbank, a well-known resident of this place.

Mr. Marchbank's lame back was caused by sick kidneys. That is why he got such pain and permanent relief from Dodd's Kidney Pills. They act directly on the kidneys strengthening them and enabling them to do their full work of straining all the impurities out of the blood.

Impurities in the blood are the seeds of disease. Dodd's Kidney Pills make good health by removing the seeds of disease.

Alberta Oil Boom

Nearly Fifty Wells to be Drilled in Turner Valley Field

Oil drilling operations in Southern Alberta continue at a steady pace and a recent survey of the industry shows that nearly fifty wells are drilling or about to be started this year in the Turner Valley field alone. The E. J. Miley Exploration Co. of California, is planning to drill several wells in the Many Island field near Medicine Hat. It is also stated, although unconfirmed, that the Dutch Shell Oil Company will invade the Alberta field in search of oil.

Give Him The Gas

"Slath Jones, 'he takin' up a collection' to do benefit of our worthy parish," exclaimed one of the brethren. "You know, he's leavin' us to take a church down in Mobile, and we thought we'd get together and give him a little momentum."—The Churchman.

SUNDAY SCHOOL LESSON

JUNE 20

JUDAH'S PLEA

Golden Text: A broken and a contrite heart, O God, thou wilt not despise.
Lesson: Genesis 43:18-45.
Devotional Reading: Psalm 51:1-14.

Explanations and Comments

Benjamin. Accused of Stealing Joseph's Cup, verses 1-17: Joseph has a faithful trap as a final test of his brothers. They have left the city behind and are headed toward home, rejoicing that they have with them corn enough for all, and thinking no doubt of how interested their father will be in hearing about their dinner with the great governor of Egypt. Suddenly Joseph's steward overtakes them and by his first words plunges them into the blackest despair: "Wherefore have ye rewarded evil for good?" he begins, and then accuses them of taking his master's silver cup, the one whereby he divineth: "The brothers protest their innocence, referring to their honesty in returning the money found in their sacks on their previous journey, and declaring that the thief, if thief there be among them, shall be put to death and the rest of them become slaves. The steward offers easier terms: the thief alone shall be his master's slave. They are kept in harrowing suspense as the steward passes from the oldest down, examining sack after sack. They are feeling safe when Benjamin's sack is reached. And then consternation takes the place of exultation. The presence of the cup in Benjamin's sack, like that of the money in all their sacks before, cannot be explained. Is there a supernatural agency at work bringing them to account for their evil past?"

"We can picture what would have been done had the ten men been of the same temper displayed at Dothan. But the distance in space from Dothan to Egypt was not the distance in time that they had traversed in moral advance. They do not stop for recrimination nor for discussion—they accept promptly as one man. They rend their cloths and load every man his ass and return to the city" (Dr. C. K. Brown).

Growth Of B.C. Industry

Production Has Increased at Rapid Rate as Shown by Figures
Great faith in the future of British Columbia has been shown in the establishment of many new industries and the expansion of those already existing, according to A. A. Milledge, secretary of the B.C. products bureau. In 1910, there were 332 plants in the province having a production valued at \$38,000,000 and employing 11,000, with a payroll of approximately \$14,000,000. In 1925 the number had grown to 1,500 plants with a production of \$190,000,000 and a payroll of \$141,000,000 to 38,500 employees.

Big Fair Opened

Sesqui-Centennial Exposition In Philadelphia Is Now Underway
Philadelphia's Sesqui-Centennial Exposition, celebrating the 150th anniversary of the signing of the Declaration of Independence, got underway May 31st, and will remain open until November.
There was a parade three miles long; there were 150 guns, 20,000 spectators; addresses by Secretary of State Kellogg, Secretary of Commerce Hoover and Mayor Freehand Kendrick.
Sir Walter Raleigh spread his cloak across the puddle for Queen Elizabeth. "Read on this, your majesty," he said. "You are in danger of getting wet."
"So? You are old man," retorted Elizabeth.—Boston Transcript.

Minard's Liment for backache

British Royal Princes All Barriers

H.R.H. the Duke of York was called to the bar and made a benches of Gray's Inn last month. Following ancient tradition, British Royal Princes always become barristers, but are not required to pass the usual examinations.

WEAK AND NERVOUS

A Condition Always Due to Thin, Watery Blood

Thin blood and weak nerves generally are found together. Red blooded people seldom complain of nervousness. The reason is that the blood feeds the nerves and keeps them taut up to the point of nerve endings. When the blood is thin and weak it fails in this important function and nervous troubles follow. The following case will interest those who need a tonic for the blood and nerves. Mrs. D. Voss, Union, S. D., says: "With a feeling of gratitude I write to tell you what Dr. Williams' Pink Pills did for me. I had become badly run down, and reached the stage when I could not do my housework. I was not only weak but my nerves seemed completely shattered. The least noise would startle me and I was subject to nervous headaches. Worse still, I could not sleep at night. Perhaps I would get an hour or two sleep, and then lie awake for the rest of the night. I had reached a stage when I actually feared I would lose my mind. Up to the time I decided to take Dr. Williams' Pink Pills, nothing I had taken seemed to do me any good. I got a few boxes of these and soon there was no doubt they were the medicine to help me. As I continued the use of the pills I gradually grew stronger, ate better and could sleep at night, and now I am as well and strong as a woman could wish to be. I hope someone else, whose nervous person will be benefited by my experience."
Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

George—"My razor doesn't cut at all. George—"Why not? You mean you mean to tell me that your beard is tougher than the cloth I cut with it this morning?"

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause and so lay the foundation for the restoration of the digestion that is the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

Galton, who classified fingerprints to aid in identifying criminals, figured that exact duplication of prints would occur only once in 65 billion cases.

She Could Hardly Do Her Housework Nerves Were So Bad

Mrs. E. M. Park, Concession, Ont., writes: "I had heart and nerve trouble, and became so short of breath I could hardly do my daily housework, and was so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me."

I Saw

recommended, so I tried a box, and after taking the second one I am now feeling like a different woman."

This preparation has been on the market for the past 35 years and has achieved a world-wide reputation for the relief of all heart and nerve troubles.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

University Of Saskatchewan Is Carrying On Valuable Work In Extending Scientific Knowledge

President Walter Murray, at the recent convocation of the University of Saskatchewan announced that the province had decided to use its share of the surplus of Wheat Pool, operated by the Federal Government during the war, to establish an agricultural research foundation. The income from the fund will be some \$13,000 a year, which sum will be administered by a board of trustees for special researches in plant and animal diseases, in marketing, and also for scholarships, says the Manitoba Free Press.

This action of the Saskatchewan Legislature is in line with its record as regards research at the University. For several years now an annual grant of \$15,000 has been voted to this end. Acting under this grant, investigations have been carried on in animal diseases and in plant breeding, in house construction, in seeking out types of corn suitable for Southwest Saskatchewan and in chemical and physical researches. Among these latter was an inquiry into the cause of decay in concrete. The work along this line has shown such promise that the Canada Cement Company and the Dominion Research Council have each repeated its grant.

So well has the ceramics department developed that it was announced that a department of geology would be established. Professor Delury, of the University of Manitoba, has accepted the appointment to this department.

Four reports on soil surveys have been issued and two more are in preparation. Evidently these reports have not been allowed to waste their information on the desert air of university files, for the farming interests and the loan companies have petitioned the university authorities that these surveys be accelerated. Perhaps this fact is as significant, as the interest of the Provincial Government in university research, in showing the close accord between the province and the university.

On the university side it will be noted that each of these efforts circled has been in direct relationship to Saskatchewan and not concernment to the ravages of the insect fly in Africa. True, science should not and cannot know community boundaries, but it may be as true science and yet begin at home.

The criticism might be levelled that all of this is applied science and that if it is playing the game, the university should also devote a portion of its time, talent and income to increase the world stock of knowledge of pure science. Dr. Murray claims that this phase is not neglected and that more over the feeling of research has quickened the intellectual life of every department of the university, students and faculty alike. From this quickening, can come the ultimate flower of human achievement, creative work.

Trees On The Prairies

Nearly Three and a Half Million Young Trees Shipped This Year

From Sutherland, Sask., have been busy shipping baby trees destined to become pleasant groves of shelter in nearly 3,000 places in the Canadian prairie provinces—Manitoba, Saskatchewan and Alberta.

The demand for this free service afforded by the Canadian Government department of agriculture fluctuates with the years, according to farming conditions and "settlers' movements. Up to the fall of 1922 the Sutherland station had shipped since its inception, over 17,000,000 trees. For 1924 the total was over 2,000,000, while in 1925 it was about the same number. This year 3,355,000 were shipped.

May Enlarge R.C. Plant

"If the chemical research work of our laboratories regarding utilization of hemlock cellulose is successful, we will double and triple the size of our plant," said Mr. Lawrence Kilham, president of the British Columbia Pulp and Paper Company, in an address before the foreign trade bureau of the Board of Trade of Vancouver.

Timber, bark and chips can live longer without food than any other creature.

W. N. U. 1633

Marketing Costs

Farmers' Returns From Canadian and New Zealand Cheeses

Investigations by the dairy and cold storage branch of the department of agriculture at Ottawa into the making and marketing costs of Canadian and New Zealand cheeses have brought out the fact that the Canadian dairy farmer gets much better than his antipodean competitor. While the average price received for Canadian cheese was but little more than one-half cent per pound above New Zealand, the Canadian milk producer received about 13 1/2 per cent. more of the selling price in the British market than the New Zealand farmer. In other words, the Canadian farmer who provided the milk for export cheese, received \$3.22 cents for every dollar's worth of his cheese sold at the London quotations, while the New Zealand cowman received only \$2.75 cents from each dollar his cheese brought in Great Britain. Mr. J. P. Singleton in his report of the investigation points out that the Canadian cheese producer has in the competition between buyers in Montreal and at country cheese boards, an insurance of good prices which sometimes exceed values justified by the state of the Old Country markets.

Seed Testing Laboratories

Over Fifty Thousand Samples Handled During the Past Year

The seed branch of the Dominion department of agriculture renders an important service in the maintenance of seed testing laboratories at Quebec, Ottawa, Toronto, Winnipeg and Calgary. These laboratories are also equipped for the analysis of underground feeding stuffs. The minister of agriculture in his annual report states that in the year ending March 31, 1925, over forty thousand samples of seed, feeding stuffs and fertilizers were handled by the laboratories. The seed samples are tested for purity and germination. The feeding stuffs and fertilizers are analyzed. Cases of misrepresentation of the composition of these commodities and the clever use of adulterants are exposed in this way. Honest and legitimate trade is protected against unsafe and inferior goods. Largely due to this work by the seed branch the quality of commercial feeding stuffs and fertilizers for sale in Canada is steadily improving.

New exhibition buildings are being erected at Ottawa. These will be ready for the World's Poultry Congress in 1927. Floor plans for the buildings are being prepared for distribution to intending exhibitors. Application for these should be made to Ernest Rhoades, Congress Secretary, Experimental Farms, Ottawa.

Some Interesting Facts

Remarkable Progress Made By Canada In Recent Years

In a recent compilation made by H. H. Coats, Canadian Government statistician, the population of Canada is estimated at 5,284,500. In 1901 it was but 3,374,000. Thus, the rate in 25 years has been 75 per cent.

Other interesting facts given in the compilation are: "The number of Canadian homes is 2,061,517, of which 65 per cent. are owned and 35 per cent. rented; the average Canadian family is 4.62; the proportion of men to women is exceedingly high—102 to 100. One may remark of the low amount of crime (2.77 indictable offences per 1,000 population in 1924). On education Canada spends more than \$120,000,000 yearly.

"Next to population among national assets stands natural resources. The basic fact about Canada is that she is half a continent and still a 'new' country. In agriculture, the total arable area is at least 309,000,000 acres, of which less than one-half is occupied and less than one quarter 'improved.'

"Though in population Canada ranks only twenty-fifth among the countries of the world, in import and export trade she ranks sixth. In exports, on a per capita basis, she stands second. Nearly half of the trade of Canada is with the United States."

Arranging Culling Service

Members of Saskatchewan Poultry Pool Can Weed Out Flocks

The Saskatchewan Egg and Poultry Pool is arranging a culling service which will enable its membership to have their flocks weeded out. The pool is also arranging to market the non-profit hens, culled from the flocks, by making live car shipments from country points. It requires some 2,000 hens to make up a carload. It is intended to make a substantial initial cash payment at the car door, when these culled are delivered for shipping. Where a sufficient number in a district desire this service, the culling experts will be available this summer. The cost per flock will be nominal.

Young Leghorn Won Egg-Laying Contest

Pullet Outdistanced All Older Contestants In Production

The younger of the hen species is more prolific than her older sister, according to records of an egg-laying contest just received by the department of commerce from Buenos Aires. A young White Leghorn pullet won the Argentine contest. During eight months she laid 122 eggs. The best record achieved by hens was by a White Wyandotte, when laid 131 eggs during the eight months. A team of White Leghorns pullets also laid a total of 310 eggs to the best total of 314 by six White Wyandottes among the hens.

A man seldom likes to meet another man who has a tad for collecting birds.

Some Interesting Information Relating To Early Exploration Of The Hudson Bay Area

All Farm Animals Need Salt Supply

Plays Important Part As Appetizer and Stimulus to Digestion

Experiences and science alike have shown that salt is essential to the good health and thrift of farm livestock. It is not a food nor does it directly increase the digestibility of food, but it nevertheless plays an important part in the work of nutrition, writes F. T. Shutt, Dominion chemist. "It is chiefly valuable as an appetizer and a substance which makes the food more palatable; as a stimulant and tonic; when taken in small amounts, and as a source of hydrochloric acid, a normal constituent of the gastric juice. Its use, therefore, leads to larger consumption of food, and by stimulating digestion, permits the animals to make a larger and more profitable return in flesh or milk production."

Of all farm animals, cows in milk require the largest amount of salt.

Sheep require salt and their should be no neglect in supplying it, either by trough, barrel salt, or rock salt. It should be available to them at all times.

Horses thrive best when regularly supplied by salt, say, about one ounce daily. When hard at work they require more than at rest, for the reason that salt is excreted in the perspiration.

Pigs and poultry require less salt than other farm animals, but it should be supplied regularly. Brood sows should not be without salt, which may be given in box, trough or self-feeder. All stock fed liberally with rich, nutritious feed, exhibit a craving for salt and this should be met for good health and thrift are to be maintained.

Is Almost Too Perfect

Vermont Boy Does Housework As Well As Chores

Donald Brown, 10-year-old son of Mr. and Mrs. Clifton Brown, is an expert in cake and cookie making. He makes all the cakes and cookies for his mother, attends to the baking and does the frosting. He also takes care of his room and does other work about the house, besides doing outdoor chores.

Needed As Much As Cash

The Brantford Exporter notes that young Cornelius Vanderbilt has lost a million and a half dollars trying to establish three newspapers. But to run newspapers more than money alone is required—brains, for example—Kingston Standard.

It is probable, also, that one ant feels vastly more important in the scheme of things than another.

C.P.R. President Leaves For England and Continent

E. W. Beatty, chairman and president of the Canadian Pacific Railway, left Windsor Station, Montreal, for Quebec recently where he boarded the Empress of Scotland for England and the continent. The trip is largely of a business nature and will cover a number of some weeks. While in England Mr. Beatty will complete arrangements for the building of the company's two new ocean liners for the Atlantic routes.

A large number of Canadian Pacific directors and officers were on the Windsor Station platform to say good-bye to Mr. Beatty and W. R. McInnes, vice-president of traffic, who accompanied him on his trip. Those included in the group were Sir Herbert Holt, F. W. Molson; Ross McMaster; F. E. Meredith, K.C.; A. D. McNeil, vice-president; J. J. Scully, general manager; W. A. Wainwright, assistant to the chairman Canadian Pacific Steamships; Ernest Alexander, secretary; W. M. Neal, assistant to the vice-president; J. K. Savage, general superintendent; G. E. E. Usher, general passenger traffic manager; E. de B. Panet; W. Maughan; W. G. Annable; W. Ballantyne and Capt. J. T. Walsh.

Left to right above are shown: W. R. McInnes; F. E. Meredith, K.C., Director Canadian Pacific Steamships; and President Beatty.

The waiter was taking the order of a pretty girl who was accompanied by a florid, portly, middle-aged man. "And how about the waiter," the waiter inquired. "Oh, he can order whatever he likes," came the startling reply.

The Belfast Telegraph Contains

some interesting information relating to early explorers in the Hudson Bay Area.

According to this paper documents relating to the shores of Hudson Bay are the most striking acquisition of the Ulster Record Office. These were found among papers of the Dobbs family at Carrickfergus, the best known of whom was Arthur Dobbs, a sixteenth century author and statesman, who towards the close of his life became Governor of North Carolina. He was dissatisfied with the Hudson Bay Company, which had confined its explorations to the coast, and had not complied with its charter by seeking a northwest passage to the Pacific Ocean. Apparently he obtained copies of reports on Hudson Bay explorations up to that time and these have been preserved for 170 years on the shores of Belfast Lough.

The Journal of Henry Kelsey, covering the experiences of an officer of the Hudson Bay Company from 1683 to 1722, is the earliest volume among these documents. The greater part of his life seems to have been spent in the valley of the Hayes River, a tributary of the Nelson. It is evident from his reports that he must have reached the prairie country of Northern Manitoba, and was probably the first white man, certainly the first Englishman, to penetrate so far. Tellico, in 1694 and again in 1697, this fact in which he was stationed was obliged to surrender to French vessels of war. Kelsey continued on the coast until 1722, and gradually rose to the position of chief trader at a station. Only scant details are given of his later experiences, but it is clear that he voyaged to the Eskimo country, although he was not able to develop trade with the inhabitants.

It is recorded that Dobbs kept up his campaign against the Hudson Bay Company and induced the British Admiralty in 1741 to send the King's Porpoise to Churchill River. The master's journal of this voyage is also among the papers recently found. In 1744 two other ships were sent out on exploration work, and the journal of one of them is included in the Dobbs papers.—Regina Leader.

Preservation Of Eggs

The "Guaranteed" Process For Eggs Stored In A Cellar

The value of the "Guaranteed" process for storing eggs, which consists of dipping the eggs in a boiling solution of wax and oil, as demonstrated in an experiment where the eggs were kept in a cellar. Describing the experiment in his latest report the Dominion poultry husbandman states that the "Guaranteed" eggs were in a considerably better condition at the end of fifteen weeks than were the non-processed ones. When tested for flavor there was a marked difference in favor of the "Guaranteed" eggs. The non-processed eggs began to have a musty flavor after the tenth week, while the "Guaranteed" new laid eggs were quite palatable, boiled or poached, when taken out at the fifteenth week. It seems, therefore, certain that the process has a decidedly favorable effect on the keeping quality of eggs stored in an ordinary cellar.

The Weed Menace

Vigorous Prosecution of the Fight Against Weeds In Alberta

More than eighty municipalities were represented at the convention of weed supervisors and inspectors, held at Olds, Alberta, recently. Thorough discussion of the weed campaign for the summer took place, and indications are for a vigorous prosecution of the fight against the weeds. Excellent co-operation between the various municipalities and the provincial department of agriculture in the campaign was manifest at the convention and considerable further progress is anticipated this year in clearing the province of the weed menace.

Was Not Interested

The waiter was taking the order of a pretty girl who was accompanied by a florid, portly, middle-aged man. "And how about the waiter," the waiter inquired. "Oh, he can order whatever he likes," came the startling reply.

AFTER EVERY MEAL

That delicious flavor of fresh mint gives a new thrill to every bite. Wrigley's is good and good for you.

WORLD HAPPENINGS BRIEFLY TOLD

The bill approving the new trade agreement between Canada and the West Indies was given third reading in the house at Ottawa.

The National Assembly at Angora, the Turkish capital, has ratified the treaty between Great Britain and Turkey settling the dispute over Mosul.

Julius Miller, of Michigan City, Indiana, lost his right eye when a passing automobile flicked from the road a nail which penetrated Miller's skull.

A. C. Ferguson, K.C., of Winnipeg, was unanimously elected president of the Manitoba Bar Association, at the annual meeting in Winnipeg.

The Rumanian Government has ordered five submarines from Italy. Italy is also completing the reconstruction and refitting two Italian built torpedo boat destroyers for Rumania.

The first commercial shipment of seed potatoes from British Columbia to California went forward recently, consisting of 60 tons of Burbank certified seed.

It has been officially announced by the grain division of the Vancouver Merchants' Exchange that no further quotations on cash grain would be issued until September 1.

Three years absent from its native cove a homing pigeon recently returned to England. It was lost in Marseilles, France, July 10, 1922. This is considered a remarkable feat of bird memory.

Senator Dandurand, government leader, replying to a question in the senate, said the government intended to appoint a minister plenipotentiary to Washington. As to whether the appointment would be made this session was under consideration.

There were more than 10,000 casualties, 1,564 of which were fatal, in Prussian mines in 1925, according to information given out by the Prussian ministry of traffic. Eighty-five per cent. of the casualties occurred in the Ruhr district.

Premier Briand of France has asked the League of Nations to make counterfeiting an international crime. Briand's action was taken as a result of the recent Hungarian counterfeit plot, which caused Europe to be flooded by bogus franc notes.

Liquor laden vessels would not be allowed to go into Canadian ports for repairs or any similar pretext if the Customs Act is amended to include a recommendation made before the custom probe by W. F. Wilson, chief of the customs preventive service for Canada.

NABOB'S TEA

"Tea as it should be"

W. N. U. 1623

Symbol Of Armed Force

German Military Uniforms Seen At Peace Conference

German military uniforms were the only military uniforms visible at the conference table at Geneva when experts under the auspices of the League of Nations began their official discussions on May 18 at Geneva, Switzerland. The one great nation theoretically disarmed, Germany was the one nation to appear with the symbol of armed forces. That incident graphically explains the reason why the voluntary disarmament of nations in Europe is extremely difficult. It is not armament that makes a nation dangerous, but an armed mind. The fact that Germany has been forced to destroy most of her weapons of war and to disband her great military machine does not make her neighbors safe if the things in terms of arms and armaments. Of all the problems before those experts at Geneva, the chief is that of finding a way to secure moral disarmament.

Cancer Without Operation

Cantassium Treatment Recommended by a Leading British Authority

On This Disease

"It is a strange thing that concerning almost every 'cure' for cancer which has been advanced by either the medical profession, or by the greatest quack or impostor that ever existed, if that so-called 'cure' could be shown in any way to benefit a case of cancer, or in any way to modify the course of the disease favorably, or even be suspected of prolonging life, that on examination, it will be found that, if the drug or nostrum which is lauded, be carefully examined and looked into, potassium, in varying quantities and proportions, will be found to unwittingly form one of the main constituents of such drug or nostrum. Take for instance, the so-called 'violet-leaf cure', or the 'willow-bark cure' of cancer. These two 'cures' are made by procuring violet leaves in large quantities and boiling them down and then drinking the water in which they have been boiled. Willow bark and willow leaves have been treated in the same manner, and the water in which they have been boiled has been drunk with the assertion that cases of cancer have been known to benefit. The above claims, put forward for both cures, have been supported by members of the profession on many occasions."

"Every quick nostrum prepared by the infusion of any herbs can be shown to contain, all of them, one common product of nature present in all vegetable life—potassium salts. "No method of treatment yet practised by the 'ultra-orthodox' among the members of the medical profession but can be shown scientifically to owe its method of action to influencing directly or indirectly the potassium economy, and perhaps, also the economy of the earthy salts of the body."

"There are many in the medical profession who will at once refuse to listen to or attempt any form of treatment other than that recognized and smiled on by the 'experts' in cancer, or rather cancer as it has hitherto existed, and been treated."

"There are those in the profession who will attempt the treatment at the expense of the patient, and at the expense of the man or woman, or only half-heartedly carry it out."

"There are those in the profession who are of an introspective and peevish turn of mind who will start by saying it is so good, will hammer home it is so good, and will ultimately prove themselves to be quite right."

"There are those in the profession, very few thankfully, who won't be bothered and who don't care."

"There are those who take a delight in trying everyone else but themselves to be quite wrong."

"There are those in the profession who, with the best of intentions and otherwise, spend their time in eagerly misrepresenting affairs and other persons."

"There are others, very many, whose name is legion, who will strive hard, and worry and fret, and eagerly wait and become over-anxious, and earnestly try and give the method a fair and just opportunity to trial."

The late Dr. F. W. Forbes Ross, M.D., Edin. F.R.C.S., Eng. D.P.H., Lond., Civil Surgeon, His Majesty's Guards Hospital, London, and for more than 20 years practising in London as a recognized cancer authority, was the discoverer of what is now known as the cantassium treatment of cancer. The above quotations are taken from his book, "Cancer: The Problem of its Genesis and Treatment," and in view of the fact that, out of all the many Canadian and American sufferers to whom I freely sent home treatment directions before the press generously published them, I have not heard from the first who has not been benefited, I suggest that all who are stricken with this terrible disease of the blood will do well if they satisfy themselves as to which of the above classes, ably defined by Dr. Forbes Ross, their own doctor belongs. By so doing, many a sufferer may avert the agonies and untimely end of the methods of treatment in vogue prior to the doctor's priceless discovery. Charles Walter, 51 Brunswick Avenue, Toronto, Canada.

CANCER

Great Success Of CANTASSIUM TREATMENT

A well-known London surgeon and recognized authority on Cancer has created world-wide interest in the discovery that Cancer is due to a deficiency of potassium "salt" in the body which causes the cells to break down and become malignant.

In order that every one may learn

The Real Cause of Cancer

A remarkable book, has been specially written. This book will be sent free to patients or any one who is in possession of this Cancer treatment of fighting "THIS CANCER SCOUTING".

The following is a list of the chapters:

1. The Limitations of Surgery; 2. What Cancer is; 3. Why the BODY CELLS BREAK DOWN; 4. Potassium Cooking Methods; 5. Common Errors of Food; 6. Medical Endorsement of Our Claim; 7. The Chemical Cause of Cancer; 8. The Thymus Gland; 9. Age When Lungs Begin to Accumulate; 10. Potassium Causes Lung Excitation; 11. Great Value of Potassium; 12. Parts of Body Liable to Cancer; 13. Why a Doctor Can Help; 14. How a Doctor Can Help; 15. Death-rate From Cancer; 16. Arterial Sclerosis and Old Age; 17. Rheumatism, Gout and Kindred Complaints.

Apply for Free Book to Charles Walter 51 Brunswick Ave., Toronto, 4, Ont.

Attractively Simple

An interesting return to the model for the younger generation, in that of the old-time adorne d'elicate chaille. A practical frock for the little miss from 2 to 8 years is pictured here, fashioned from chaille. The dress is so simple it can be made in a few hours.

The sleeves have raglan shoulders, and the neck has gathers at both front and back and may be finished with a round collar as illustrated, or a narrow band. An attractive touch of color is given to the front by two rows of colored thread, run in long-and-short stitch from the neck to the outer edge of the tucks, which simulate pockets. The bloomers are gathered into hands at the knees and waist. No. 1308 is in sizes 2, 4, 6 and 8 years. Size 4 years requires 2 1/2 yards 32-inch material for complete dress. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

To Preserve Niagara's Beauty

Scenic Beauty Of Niagara Falls Is To "Be Safeguarded"

Constitution is under way of a joint committee representing Canada and the United States to discuss:

(1)—Preservation of the scenic beauty of Niagara Falls.

(2)—The quantity of water which may be further diverted from the Niagara River without interfering with the beauty of the falls.

Canadian representatives on the committee are Col. O. M. Blygar, Ottawa; I. G. Johnston, chief of the water powers branch, department of the interior, Ottawa, and Dr. C. F. Camell, deputy minister of mines, Ottawa. Names of the United States representatives on the committee have not yet been received.

Sores Heal Quickly—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop itching, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among old, and numbers of people can certify that it healed where properly applied.

Not Coming To Canada This Year

Prince of Wales Not Visiting Ranch

Says Calgary's Mayor

The Prince of Wales will not visit Calgary and his ranch for some time, and probably not this year, according to Mayor G. H. Webster, who had an audience with the Prince at St. James' Palace when he was in England recently.

According to the mayor, the Prince was greatly interested in conditions here and asked a number of questions about Canada.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Exterminator.

Department Stores Merge

Many of the department stores located in as many cities and towns of Ontario as rumored some time ago has become an accomplished fact according to the Financial Post. It is stated that \$9,000,000 is involved in the transaction and that the annual turnover of the interests merged amounts to \$10,000,000 a year.

What is bothering some of the extreme feminine agitators is that even in emancipation there is a man.

Practice makes perfect and the neighbors feel like amazing the piano.

Answer to Last Week's Puzzle

British To Control Marconi Company

Only Small Percentage of Issued Shares

Capital Held By Foreigners

At an extraordinary meeting the Marconi Telegraph Company agreed to an alteration of its articles of association whereby the company will remain under British control and not more than 25 per cent. of the issued share capital will be held under foreign control. Only natural born Britons will be eligible as directors or officers in the United Kingdom or the British dominions.

For Sprains and Bruises—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

Sets Glider Record

Ferdinand Schulz, the noted German glider pilot, has established a new world two-passenger glider duration record, remaining in the air 9 hours, 21 minutes and 53 seconds with a student pilot. Schulz held the previous record of 5 hours and 45 minutes.

The trouble with a great many young men who want to see life is that they imagine none of it is worth seeing by daylight.

Grove, at 8.30 on the Evening of

FRIDAY, JUNE 18th, 1926

Addresses will be given by the
Candidate and Others.

GOOD NEWS "Without money and without price"

"THE KINGDOM OF HEAVEN AT HAND"

Thousands of Churches are without ministers not
withstanding the great need of preaching the Gospel

free free

"There is a talent in the land - the talent
the world despises - the talent that
the people need the most on every hand. Will you do your part?" The International Bible
Students Association will supply ministers of the Gospel free of charge on application.
Conditions: Open the church building; admit all free; take no collections. ADDRESS:
G. A. Ware, 5 Conwell Block, Edmonton
or I.B.S.A. 270 Dundas St. W. Toronto, Ont.

TWELVE REASONS For Electing Liberals

1. The Liberal Party stands for a more business-like administration of Alberta affairs. The present government is without business ministers, without business experience and has been without business success. It is a Class Government which is divorced from business entirely.

2. It stands for greater economy in administration. The present government has increased the debt of the province in five years by \$22,000,000, with nothing permanent to show for it. It has been more extravagant than any previous administration, or any other in Canada.

3. It stands for more progressive administration. The present government has nothing to show for its five years of office. It has passed no constructive legislation. It has delayed all the serious problems.

4. It stands for more active development of the unsettled areas. The present government has made no advance since it took office.

5. It stands for better development of agriculture. Capt. Shaw objects to bringing the pools into politics, but his record as a member in Ottawa shows his enthusiasm for co-operative marketing, his vigor for cheaper transportation rates, his insistence on the removal of all the burdens which have been preventing development.

6. It stands for better educational facilities. The present government has been sacrificing education and burdening the department with useless educational fails.

7. It stands for better health organization and encouragement for hospitals. There has been no development in the health department since 1921.

8. It stands for honest and efficient administration. A fair distribution of the expenditure on public works.

9. It stands for honest distribution of the province into ridings.

10. It stands for justice to the returned man in the province.

11. The record of the Liberal party has been one of development and progress. It has to its credit:

1. The settlement of the province.
2. The organization into municipalities.
3. The destruction of railway, lumber and telephone monopolies which threatened its destruction in early days.

4. Farmer legislation such as co-operative elevator act, the farm machinery act, direct legislation.

5. The beginning of labor legislation, which has remained unimproved. This includes the Factory act, the Workmen's Compensation act, and other similar legislation.

6. The development of the vast Peace River area.

7. The organization of schools, the creation of the Provincial University, the Institute of Technology and Art and the Farm Schools.

8. Franchise for women and all legislation safeguarding the rights of women.

9. Hospital legislation and all progressive health legislation.

10. Soldier relief legislation.
12. It has at its head a man who has wide experience in legislation, who has at his back outstanding representatives not of one class alone, but of all classes in the province—farmers, labor men, business men and professional men.

VOTE FOR MURD MCKINLAY.

Advtg. Inserted by Alberta Liberal Party

Stony Plain and District.

Rev Mr. Haasman, pastor of old St. Paul's Church, Golden Spike, has moved to the residence of Mr. Louie Schoepf for the present.

The minority members of old St. Paul's Church (Golden Spike) congregation held their first service on Sunday last, June 13, since Pastor Hildebrandt left.

To celebrate the coming of age of the province of Alberta, which was formed 21 years ago, a huge historical pageant will be staged in Edmonton under the auspices of Edmonton Exhibition Ass'n, during the week of the annual exhibition, July 12 to 17.

B. C. Apples

Expected That There Will Be A Sixty Per Cent. Crop This Year
(By J. Alex Atkin)

Kelowna, B.C.—There is a decided opinion here that the apple crop will be a 60 per cent. crop, due largely to unfavorable weather conditions. There is no getting away from the fact that fruit growing in this valley can only be assured from year to year by irrigation, just as is the case in the States to the south. The fruit farms which have water this season are promised a very good yield, but otherwise the outlook is not bright.

There remains plenty of land along the hills below the water line, and in the valleys waiting to be taken up and used. The Cymmen are working some of the least desirable land and raising a lot of vegetables. Up to the present time there have been 30 cars of vegetables shipped out of the valley this season, and most of that product is from the Orientals land.

The drought this season gave invitation to grasshoppers and they are in plenty on some land. The provincial fruit branch has ready for use to all who will take it to their own land a preparation of bran and sawdust with aspen flavored with molasses and vanilla which proves that the hopper likes the rum and the fatal jag. The stuff is effective and has saved many acres of tomatoes and small fruit and vegetables.

For sometime Jonathan growers were troubled with early decay in that variety. Careful inquiry and research on the part of the Federal Fruit Branch led to the sure knowledge that the trouble has been caused by late picking after the fruit had passed picking maturity. It was found beyond question that where the Jonathans were picked early they had the keeping quality desired and proved good right through September to December. Therefore, it will in future be safe for Jonathan lovers to buy their favorite apple.

The growers are seeing it is advisable to concentrate on a limited number of varieties in order that they may be able to supply demand in car lots as ordered. Formerly growers set out a wide number of varieties not foreseeing the situation as it has since developed. Along with this effort at concentration there will be attention paid to giving out information on the season for the ten varieties which have been adopted. And while there is the standing doctor's assurance that it is always time to eat an apple, the apple men will tell you that it is just as much of a mistake to eat an apple at the wrong time or season as it is to try to masticate an unripe peach.

The ten varieties and the time when they are at their best follow: The Early Duchesse, Wealthy, Sept. to Nov.; McIntosh, Oct. to Jan.; Jonathan, Sept. to Dec.; Delicious, Nov. to Jan.; Grimes Golden, Nov. to Jan.; Wagner, Nov. to Dec.; Spitzenburg, Nov. to Jan.; Yellow Newtown, Jan. to April; Winesap, Jan. to April. The Canadian Pacific Railway gives exclusive service to the Okanagan Valley and is quite equal to all demands for traffic. During the past year two important concessions have been made to shippers. The first, and as important one, is that of protection of fruit against frost. This form of insurance enables the shipper to go right on using freight cars, so long as the weather is reasonably moderate, after which shipments have to be made in refrigerator cars. The other concession, not less valuable, is that cars of fruit by express may be opened for delivery twice enroute to final destination point. The effect of these arrangements is to facilitate movement of the crop promptly and hold down the cost of transportation, which in turn affects the consumers price.

The average net price received by growers for apples last season was about 40 cents per box, or some varieties as high as 75 cents was paid the growers, but plenty of apples did not bring more than 30 cents. The average cost for packing and shipping is found to be 70 cents, which includes administration charges. This question is being made the subject of a special inquiry by Major Duncan for the Federal Department of Labor.

The most obstinate corns fail to resist Molloy's Corn Remover. Try it.

It is not generally known that flour, sugar, starch or grain dusts are capable of working greater havoc than a high explosive such as dynamite.

Minard's Liniment for Rheumatism

You need not hide skin defects—now

Millions know this simple way to avoid them—to keep skin lovely, youthful

Do not make the mistake of attempting to cover or hide skin defects. It can never succeed. And there is a better way—millions know:

This simple method to avoid them—to keep the youthful radiance and clearness of schoolgirl complexion.

For a week do this:
Cleanse the skin regularly, au-

Made in Canada

thorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse—and repeat the washing. Then rinse again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

Value and efficiency produce 25¢ quality for 10¢

The simple, correct way

You can afford to make an effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild, but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive. Enjoy it for the bath also.

But be sure you get Palmolive—which is never sold unwrapped. All dealers have it. Get some and follow this simple method for one week. Results will delight you, even in that short time.

THE PALMOLIVE COMPANY OF CANADA, LIMITED

Winnipeg Toronto Montreal
Palm and olive oils—nothing else—give Nature's green color to Palmolive soap.

Britain—Building Up Forests

British Forestry Committee Has Already Started Tree Planting
The British Forestry Committee is planning a forest station development in a huge area of East England with the idea of creating the largest forest in Great Britain. Tree planting has already begun.

The area under development is a vast sandy wasteland. The plan includes the erection of workers' huts for one hundred families. It is expected that the development will be profitable not only in the production of timber, but in the increased fertility of the surrounding land.

Corns, Warts, Bunions, Painlessly Removed

Don't limp any longer, don't suffer another hour from corns. The oldest remedy and the best, the one that, for fifty years has proved a true success, will lift out your corns in a hurry. Putnam's Painless Corn and Wart Extractor is the one remedy to use. Refuse a substitute, 25¢ everywhere.

Settlers Interested in Irrigated Lands
Irrigated farm lands at Taber, in South Alberta, are attracting prospective settlers from the United States and Eastern Canada, and several land scouts have been sent to the vicinity by colonization organizations.

Stop the Cough—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

Donates Plane to Japan
Captain Georges Pelletier d'Oisy, the French aviator who recently completed a flight from Paris to Tokyo, has donated the aeroplane in which he made the last leg of his journey from Shanghai to the Japanese army.

FOR COLIC AND CRAMPS PAINS IN THE STOMACH THERE'S NOTHING TO EQUAL

It has been in use for the past 50 years; its action is pleasant, rapid, reliable and effectual, and relief comes promptly.

The Text Explained and Illumined
LIVING WATER, verses 7-14. Most commonplaces are but milestones that mark our progress along the road we are travelling, yet some prove turning-points which send us in another direction: such a turning-point was the errand of a woman of Samaria to the village well for water—there she met Jesus, Jerusalem had not received His Lord, and he was on his way to "his own country", of Galilee, and was passing through Samaria. On nearing Sychar, Jesus, being wearied, sat down to rest on the curb of Jacob's Well, while his disciples (the five first called) went on to Sychar to buy food. As the woman approached Jesus asked her for a drink. In surprise, she exclaimed: "How is it that thou, being a Jew, askest drink of me, who am a Samaritan woman?" (For Jews have no dealings with Samaritans, the Evangelist explains). At this time either it was permissible to trade with the Samaritans (verse 12) or the disciples ignored the law-against-it, but no Jew would ask a favor of a Samaritan.

"The woman's soul, a light-hearted way of entering into conversation—losing the ball back to the unknown Samaritan—his own satisfaction that the circumstances enabled her to be saucy to a Jew. 'What a Jew has descended to beholden for a drink to a Samaritan! And does he really expect to get it?' Who could have believed it so easily!"

Jesus' next word to the woman is full of yearning distress—If you knew what God's blessings are, and how freely he gives them, if you knew that he who speaks to you has it in his power to give them all, you would be the seeker then, and he would not refuse you, he would give you living water. "Living water" in the literal sense means good spring water from a living spring instead of cistern water.

Radio Set For Prince

Token of Appreciation From Radio Fans of America

When the Prince of Wales stepped aboard the Cunard liner, Berengaria on August 23, for his trip overseas, he received the most magnificent radio set ever constructed in the United States. It was presented to him by W. Roy McCaughey, President of the Stromberg Carlson Telephone Manufacturing Company, as a token of appreciation and goodwill from the radio fans of America. The set, which is a five-tube Neodyne, is mounted in a console of Adam Brown Mahogany with everything self-contained. All its metal parts are gold-plated. The set was delivered to the Berengaria and taken across the Atlantic aboard that ship on its eastward passage, so that present-day could be made immediately after the Prince boarded the liner in Southampton.

Minard's Liniment Heals Cuts

Helping the Starving Greek Refugees

Appeal is Made To Western Canada To Lend Assistance To Worthy Cause

Western Canada is being appealed to, through The Save the Children Fund, of London, England, in aid of the half-million or more women and children who are among the Greek refugee army, driven out of Turkey under the Treaty of Lausanne. They constitute one of the greatest tragedies of the post-war period; as they flee among the victims of war. They have poured into Greece, homeless, helpless and hungry, and they are dying like flies from starvation and disease.

Other parts of Canada are responding to this pathetic appeal, and the farmers of Western Canada are asked, through a grain campaign, to do their bit by contributing a few bushels of wheat when selling their crop at the elevator. The various grain, elevator and unified farmer organizations are co-operating.

A strong western committee has been formed, with Mr. C. W. Rowley as Honorary Treasurer, with offices at 303 Scott Block, Winnipeg. The campaign is endorsed by Premier Bracken, Premier Greenfield, Hon. T. A. Cramer, and other leaders. It is confidently expected that the west, as always, will make as generous a response as the crop situation will permit. No Canadian will be the poorer for sharing a little of his substance with the starving kiddies in any part of the world.

Mr. Frank Yelich, of Toronto, the well-known Canadian writer and lecturer, has arrived in the west to assist in the campaign, after having conducted a successful one in Ontario which brought in \$25,000.

Those who prefer to make a cash contribution may remit to Mr. C. W. Rowley, 303 Scott Block, Winnipeg.

Pines are among the few trees that can grow at a high altitude.

If you would learn a man's good deeds attend his funeral.

YOU'VE TRIED THE BEST NOW BUY THE BEST

There is a dealer handling New-Castle coal in every town in Western Canada. Look for him.

CAPT. J. R. SHAW'S MANIFESTO.

1. Immediate examination of our provincial taxation system and adjustment on sound principles of taxing powers between the province and the municipalities.

2. Decentralization as far as practicable in the services of government, so as to secure more efficient service at less cost.

3. An immediate and long overdue reduction in taxation with special tax adjustments for sub humid areas not suitable to intensive production.

4. A serious and determined effort to make expenditure balance income every year, not every pre-election year only, as at present.

5. The budgeting of an adequate sum every year, on the sinking fund principle to effect the retirement of our public debt within a reasonable time.

6. Realizing the primary importance of the agricultural industry, the Liberal party pledges itself to assist that industry in every reasonable way, by ensuring that co-operative marketing enterprises get a square deal, secure from unfair competition and from all partisan influence and all discrimination; by the provision of adequate facilities for marketing the farmers' produce, by establishing in close co-operation with the Dominion government, a system of rural credits based on sound principles, by vigorous demand before the Railway Commission for needed reductions in railway and express rates and for the elimination of discriminatory freight rates, and by jealously guarding the farmers interests in the western route, not only by zealous watching but also by proper representation.

7. The Liberal party undertakes to inspire a real leadership in educational affairs and will be prepared to make more liberal financial provision for that essential service. Also will ask every educator to have the federal government not only continue but increase its grants for technical education. In addition there must be closer co-ordination of the agricultural work undertaken by the university and agricultural and other schools in the province.

8. The Liberal party pledges itself to encourage an expansion in the hospital and nursing service of the province in order to promote the highest standard of public health.

9. The Liberal party has assisted in every possible way to secure the return to the province of its natural resources. This should soon be realized. It honored with public confidence the Liberal party proposes to undertake the prompt and efficient development of these resources in the public interest along sound business lines.

10. When entrusted with office the Liberal party will engage a small body of experts to examine the sources of power in the province for the purpose of evolving if possible a practical power scheme to supply cheap power to our communities for industrial and agricultural purposes.

11. The Liberal party offers a redistribution according to a definite plan on the principle of representation by population, paying however, due regard to the more sparsely settled portions, geographical area and community of interest; it being understood that such redistribution will substantially reduce the number of provincial ridings.

12. The Liberal party proposes to encourage a policy of co-operative effort of all classes and their representatives in the interests of democratic legislation.

13. The Liberal party strongly favors and approves of a co-operative effort between the Dominion and Provincial governments for the purpose of securing old age pensions. The plan which has received second reading in the House of Commons is approved.

14. The Liberal party is responsible for every advance made in securing to women a larger measure of equality in political and economic matters. That policy must be continued until in every practicable way, women enjoy the fullest equality with men.

15. The Liberal party offers to the electors a policy of constructive effort and of action, and a government "of all the people, by all the people and for all the people."

VOTE FOR MURD MCKINLAY.

Issued by the Liberal Association of Alberta.

WESTERN CANADA'S FIRST HOME-MADE ENGINE

ANOTHER railroad milestone of Western Canada was passed on April 26, when the first engine ever constructed in this part of the Dominion was turned out of the Canadian National Railway Transcon Shop at Winnipeg, where it was built. Engine 2747 shown above was constructed entirely in the local shops, the work being done in addition to the regular output of repairs to

other engines. After the various parts were made, the frames for the locomotive were laid down on March 17 and construction was completed on April 19th, a total of 87 working days, the first run being made to Winnipeg on the following day.

Number 2747 is classed as a 39% engine, is capable of main and branch line freight hauling and has sufficient speed to run the Transcontinental. The weight of the locomotive and tender complete is 150 tons. After trial runs, it will be used on main line time freight trains on the Alberta district of the Canadian National, where the best use can be made of this class of locomotive and where the fuel saving device with which it is equipped will give the most economical results. Number 2748, which is now in course of construction at Transcon, will be ready for service in Alberta in May.

Voters Attention!

Directions as to the use of Preferential Ballot.

The preferential ballot will come into general use for the first time in the forthcoming provincial elections. Every voter should be thoroughly conversant with the method of marking the ballot before attempting to vote. Read these instructions:

The voter must not use the X mark.

The voter must place the figure 1 opposite the name of the candidate who is his first choice, the figure 2 opposite his second choice, the figure 3 opposite his third choice and so on until he has voted for all the candidates on the ballot if he so wishes.

The voter may plump for one candidate alone, using the figure 1, without spoiling his ballot, but is urged to vote to the full extent of his choices, as it is only by doing this that the voter obtains the full benefit of this form of ballot.

The voter must not place more than one choice opposite any one candidate.

The voter must not make the same choice for more than one candidate.

The voter must not make any mark on the ballot not authorized by these directions.

Read these Instructions Carefully

JOHN D. HUNT,

Clerk of the Executive Council,
Government of Alberta.

\$3,000,000 IS VOTED FOR WORK ON H. B. ROAD

Ottawa.—After considerable discussion, the house passed a vote of \$3,000,000 for the Hudson's Bay Railway. The vote went through without a division.

The purpose of the vote is to put into shape for operation the 232 miles of the road from The Pas to Kettle Rapids on which steel has already been laid.

Speeches came mainly from Conservatives, among whom there was a division of opinion over the road. The point was pressed, however, that before embarking on the Port Nelson harbor scheme, it would be advisable to make practical tests of the Hudson's Bay route as a grain carrying route. Hon. Dr. Manion suggested that, to this end, a Canadian government merchant marine vessel should make trips for three years from Kettle Rapids to Port Nelson and give a fair and honest report of the straits and the bay.

Hon. R. B. Bennett was emphasizing the suggestion when a Conservative interrupted that the vessel in its test trip might take the cabinet along.

"Or the board of strategy," shot back Hon. C. A. Dunning.

Immediately after the passing of the Hudson's Bay vote, the house, without discussion, passed two votes for the Welland Canal. One was \$14,000,000 for construction, the other \$145,250 for additional payment to the contractors.

B.C. Sawmill Burned

Big Blaze Throws Two Hundred Men Out of Work

Merrill, B.C.—Two hundred men are out of work in this town in Nicola Valley in the interior of British Columbia as the result of a fire which destroyed the sawmill of the Nicola Pine Lumber Company, one of the largest mills in the province, with a resultant loss estimated at \$200,000.

Several of the employees were rescued from the burning building only with great difficulty and the whole town for a time was threatened by the embers which were carried for long distances by a heavy wind.

Heroic efforts of the fire fighters resulted in the planting mill, drying kilns and millions of feet of lumber in the adjacent yard to the sawmill being saved, despite the fact that the wind was blowing in that direction.

Higher Production Of Registered Seed

Record Increase Shown In 1925 Over Former Years

Ottawa.—Canadian production of registered seed of the principal field crops in 1925 shows a material increase over former years according to figures just released by Peter Stewart, secretary of the Canadian Seed Growers' Association. Wheat, barley and sweet clover made the greatest gains, the increases over the previous year being 40,000 bushels, 8,000 bushels and 7,000 bushels respectively.

There is a growing demand from many lands for samples and quotations for Canadian registered seed, which seems to point to possibilities for a flourishing export trade within the near future.

Body Washed Ashore

Windsor, Ont.—The body of Mrs. James Phipps, missing since the middle of the winter, with her husband and five children, who disappeared while diving in a sedan across Lake Erie from Pelee Island, was washed ashore at Sturgeon Bay, three miles from Leamington. The body was identified by Fred Gate, brother-in-law of Mrs. Phipps.

Would Cut Tax On Wines

Ottawa.—The conference of provincial premiers, and other representatives of the several provinces, passed a resolution asking the Federal Government to cut to one-third its taxes on wines and spirits made in Canada and sold to provincial government agencies, and also to reduce to one-half the tax on wines and spirits imported by these agencies.

W. N. U. 1683

Tariff Advisory Board

Manufacturers' Association Expresses Faith That Proper Stand Will Be Taken

Toronto.—Confidence that the new tariff advisory board would deal fairly with the problems which it will be called upon to face, keeping in mind a broad Canadian attitude in their discussions, was expressed by various speakers at the annual meeting of the Canadian Manufacturers' Association.

President J. H. Forster, Quebec, said: "I think, gentlemen, that when you take your cases to that commission, you will be well respected. I have all faith that as Canadians they will take a proper stand."

Regarding the relation of the manufacturers to the rest of the country, the speaker said: "What we want is to show ourselves in a proper light to other classes in the country. Our case is their case; their case is ours. If we could bridge over the gap that appears to exist we would have accomplished something worth while for the good of Canada."

Hon. E. J. Davis, Newmarket, declared that co-operation was evident in Canada today and therefore suggested "a Canadian development committee," composed of men of broad vision to meet representatives of farmers and other classes to discuss matters of interest to all. In this way an excellent condition of affairs could be brought about.

Want Germany In League

Leaders Anxious to Settle Membership Question in September

Geneva.—To get Germany into the League of Nations at the September meeting at all costs appears now to be the definite programme of the league leaders.

If necessary, a special session of the council will be convoked during the summer in order to render impossible any repitition of the March fiasco when the Reich statesmen were obliged to return to Berlin without being elected to membership.

This means that if Spain and Brazil continue their present policy, "which is termed here as 'waiting,' they probably will be jettisoned by the main powers, work of re-organizing the council proceeding without them.

Suggest Co-operation To Stop Smuggling

Matter Discussed at Conference Between Canadian and U. S. Officials

Ottawa.—Closer co-operation between the Canadian and United States Governments in regard to smuggling was under discussion at a conference here between Lincoln C. Andrews, United States assistant secretary of the treasury, in charge of the American prohibition and customs department, Harry C. Whitehall, collector of customs for Vermont, and Hon. G. H. Roivin, minister of customs for Canada. No announcement of the actual matters discussed was made.

Given Life Membership

St. John, N.B.—Life membership in the National Chapter of the Imperial Order Daughters of the Empire was conferred on the honorary president, Lady Byng of Vimy, as a tribute to the wife of the former commander of the Canadian Corps, by the National Chapter in session here.

SENATE ADOPTS AMENDMENTS TO CUSTOMS TARIFF

Ottawa.—The senate adopted the budget amendments to the customs tariff and the bill was given its third reading.

When these amendments were under discussion, Hon. J. D. Reid, former minister of customs, said from his experience the customs staff on the whole was a good organization. He never could understand how the service administered the customs act at the salaries paid. Men getting less than \$2,000 a year were doing work of the most important character. He did not believe the customs act would ever be properly administered unless competent men were secured by paying adequate salaries.

Hon. Jacques Bureau, late minister of customs, endorsed the remark of Dr. Reid. He believed the present customs staff was equal to any in the government service but are under-paid and under-manned.

There was considerable discussion on the amendment making free certain automobile parts not manufactured in Canada. Greenwood, Conservative Senator Gordon thought that the duty should be maintained and these parts made here.

Senator Dandurand said that when they were manufactured in Canada the duty would be replaced.

Popularity Of Lord Willington

Canada's Resident in London Are Pleased With Appointment

London.—Canadian residents in London warmly welcome the announcement of Viscount Willington's appointment as governor-general of the Dominion of Canada in succession to Baron Byng of Vimy.

Hon. Peter Larkin, Canadian high commissioner in London, in a statement testified to the gratification which the news of the appointment had been received in Canada. Right Hon. Sir Hann. Greenwood, Conservative member of the house for Walthamstow East and former chief secretary for Ireland, was equally convinced that a hearty welcome awaits Lord and Lady Willington on taking up residence at Rideau Hall, Ottawa.

Withdraws Motion

On Egg Grading

Question Will Be Referred To Committee Of Agriculture

Ottawa.—A motion introduced in the house by Hon. Hugh Guthrie (Conservative, South Wellington), which stated that in the opinion of this house the system of egg grading which came into force April, 1924, imposed a hardship upon farmers engaged in egg production, was withdrawn, after Hon. W. R. Motherwell, minister of agriculture, had agreed to refer the question to the committee of agriculture.

Murdered in China

Shanghai, China.—Mrs. W. E. Sibley, wife of a Canadian Methodist missionary at Jungten, Sze Chuan province, was murdered in the streets of Chengtu, in the same province, according to a message from the latter place.

May Organize Wheat Pool For Ontario

Will Likely Work in Close Co-operation With the Western Pools

Toronto.—That the United Farmers' Co-operative Company, Limited, undoubtedly will take the initiative in organizing an Ontario wheat pool to work in close co-operation with the western pools, was indicated by H. A. Gilroy, president of the United Farmers' Co-operative Co., Ltd., in a statement here.

Colin A. Burnell, Winnipeg, secretary of the central selling agency of the western pools and president of the Manitoba Wheat Pool, has been in close touch with executive members of the U.F.O. organizations during the past week, and if the co-operative company decides to proceed with the proposition, it is expected Mr. Burnell will be called upon to assist in the necessary organization.

Mr. Gilroy expressed himself as having complete confidence in the few billity of a wheat pool for Ontario, but the matter will be threshed out thoroughly at the next board meeting of the United Farmers' Co-operative Company, Ltd. this month.

Hold Royal Court

Nearly Nine Hundred Guests Presented to King and Queen at Buckingham Palace

London.—Planned, bejewelled and groomed in gosamer court gowns of dazzling beauty, women of social and political prominence were presented to King George and Queen Mary at Buckingham Palace at the first of the season's royal court.

The King and Queen entertained nearly nine hundred guests, mostly drawn from official diplomatic circles, as is the custom for the first court. About a third of those attending were debutantes and older women who were ushered into the presence of royalty for the first time.

Valuation Of Elevators

Valuation of 451 Elevators in Saskatchewan To Be Made This Month

Winnipeg.—On application of R. H. Milliken, representing Saskatchewan Pool Elevators Ltd., proceedings of the arbitration board valuating the elevators of the Co-op Elevator Company in connection with the proposed sale of the Saskatchewan Wheat Pool were suspended, after two sessions. The date is to be fixed at Fort Arthur and the arbitrators are returning home. It seems probable the third and final session of inquiry, namely, that dealing with valuation of 451 line elevators located in Saskatchewan will not be proceeded with before June 25.

Canadian Immigration To U. S.

Washington.—Quota limitations on immigration from North, Central and South America on the same basis as now applicable to European countries would be imposed under a bill introduced by Chairman Borah, of the senate foreign relations committee.

Sentenced to Hang

Winnipeg.—Sentence of death was passed on Daniel Procevic for the murder of Annie Cardno, an old-time sweetheart, in Winnipeg, March 16 last. The execution was fixed for August 25. Procevic was unmoved when sentence was pronounced.

GOOD SUPPORT FOR A NATIONAL FUEL POLICY

Ottawa.—Establishment of coking plants in large centres of population and the adoption by the Dominion of measures which would enable Canadian coal to be marketed in Central Canada were recommended by premiers and representatives of provincial governments who appeared before the special committee of the house investigating the Dominion's coal supply.

Premier Ferguson, of Ontario, said his province was willing to bear a fair and reasonable share of the cost of encouraging the coal industry in Western Canada and in the Maritime Provinces. The use of Canadian coal in Central Canada, in place of the importation of this commodity, would, he observed, tend to keep money within Canada.

Hon. W. R. Craig, attorney-general of Manitoba, and H. C. D. Richards, New Brunswick minister of mines, supported the recommendations to provide fuel from Canadian mines instead of importing it.

Mr. Craig said that the experience of Manitoba with Alberta coal had been highly satisfactory. Manitoba was prepared to do its share in supporting a national fuel policy.

Mr. Craig presented a resolution passed at the present conference of provincial premiers, which expressed the opinion that the Government of Canada should take immediate steps to ensure the establishment of coking plants in the large centres of population, and the adoption of such measures by the Dominion as will enable Canadian coals to be marketed in the central parts of Canada.

Killed By Senate

Old Age Pension Bill Defeated In Upper Chamber

Ottawa, Ont.—The senate threw out the old age pension bill by a vote of 46 to 51.

The defeat of the bill came on the second reading, which had been moved by Senator Dandurand, Government leader. In the vote, Senator Robertson, former minister of labor, was the only Conservative to support the bill. Sir Allen Ayleworth, Senator J. J. Hughes, and Senator Turfitt, all from the government side of the house, voted with the Conservatives against the bill.

Senator W. B. Ross, Opposition leader, said that he believed the government had no constitutional right to invade provincial jurisdiction over such matters as old age pensions.

The bill constituted a discrimination against the maritime provinces because they were unable to participate in the financial proposals of the bill. Senator Belcourt said it would be unfair to deprive some provinces of the advantage of the scheme because others could not take it up.

Senator Deschenais said Quebec opposed the bill.

Senator J. D. Reid said that only one out of the nine provinces had expressed a willingness to participate in the scheme. It should have been dealt with by a conference of premiers before introduction.

Senator Dandurand, Government leader, in moving second reading of the bill, urged that it was a measure of relief for poor working people.

World's Record For Seedling

Winnipeg.—Seedling operations, on a scale said to constitute a world's record, were carried out on the farm of Mrs. H. Joiner, of Spring Coulee, Alberta, on June 7, when 360 horses, 41 cultivators, and 30 seed drills were used by neighbors in the sowing of 300 acres. Mrs. Joiner's husband died recently.

Austrian Situation Excellent

Geneva.—The sub-committee for Austria on the council of the League of Nations has voted that the league's financial control over Austria should terminate on June 30 as the situation in that country was excellent.

Economic Commission

Berlin.—An economic commission is to investigate Germany's capacity for production in all lines and her marketing facilities at home and abroad. The new body will begin its investigations immediately.

Across Canada in Eighty Hours

When the Canadian Pacific special mail train came to a stop at the C.P.R. depot at Vancouver, at exactly 5:58 p.m. Thursday, May 6, after its journey across Canada from Quebec, it established a record which, according to the officials of the company, will stand for some time. The trip was made from Quebec in three and a third days, the run from Winnipeg taking 32 hours and 6 minutes, 24 hours faster than the through passenger trains, and three hours faster than the speedy milk trains, the fastest trains crossing the continent. The photo above shows the train on its arrival at Vancouver with the Old Country mails for the Orient. The transfer of the mails to the boat took only twelve minutes. Indicating the resourcefulness of the C.P.R., an executive of the company had agreed to get the mails to Vancouver by 7:00 p.m. on May 6. The train came in an hour ahead of time.

formerly of Stony Plain, Alberta, and
sometime of North Battleford, Sas-
katchewan;

TAKE NOTICE THAT your hus-
band Joseph Treit through his Solicitor
F. W. Lumby, Barrister, Stony
Plain, Alberta, has commenced an
Action against you out of the Su-
preme Court of Alberta, Judicial Dis-
trict of Edmonton, for a Decree of
Divorce absolute dissolving your
marriage to the said Joseph Treit on
the ground of Adultery, and further
for an Order giving to him the cus-
tody of the Children of the said mar-
riage.

AND FURTHER TAKE NOTICE
that if you dispute the right of the
said Joseph Treit to either of these
remedies you must not later than
the 30th day of June, 1926, file a
claim to be filed in my Office in the
Court House at the City of Edmon-
ton a Statement of Defence to the
said Claim and that in default of your
so doing the Plaintiff may proceed
against you in your absence and ob-
tain judgment or such other Order
or orders that he may appear by the
evidence to be entitled to.

This Notice is published pursuant
to an Order of the Master-in-Cham-
bers, Edmonton, Alberta, dated the
28th day of May, A.D. 1926.

18 Nations Represented at Girl Guide Conference

Canadian Pacific liner Molta leaving Canadian Metropolis with Girl Guides.

Representing eighteen nations of
the world, a party of twenty-
nine girl scouts and guides sailed
from Montreal recently on the Cana-
dian Pacific liner "Molta" after
having attended the International
Conference of Girl Guides in New
York.

When the party arrived at
Windsor Station, Montreal, from
Buffalo, a deputation of Montreal
Officials met them and accompanied
them to the pier.

Miss Lydia Lidholm, assistant in
charge of the party, said that the
members of the delegation had a
greater conception of the spirit of

Canada and the United States and
prevailing conditions than ever be-
fore. They were returning to their
own countries in Europe much bet-
ter informed and much more com-
petent to carry on the work of the
organization.

Talking on various phases of the
conference, Miss Lidholm said that
even though representatives from
eighteen countries were assembled
they found that they had almost iden-
tical views on the work and were
satisfied that the great friendly feel-
ing that had been created would be
last for many years and would be

Girl Scouts gathered for last view of land on
this side of Atlantic as Molta left port.
Instrumental in advancing the Girl
Scouts Movement through a closer
relationship.

At present there are girl scout and
girl guide movements in almost every
community centre in Canada and the
United States, while many of the
rural districts are showing signs of
interest in these organizations. The
European party, who arrived in New
York on May 5, came to see for
themselves the organization systems
in force here. They visited Boston,
Washington, Detroit, Buffalo, Tor-
onto, and Montreal.

In the Canadian metropolis the
visitors were welcomed by Mrs. G. H.
Dugan, provincial divisional com-
missioner; Mrs. H. M. Marler, divi-
sional commander; Mrs. C. Camp-
bell, president Montreal Committee;
Mrs. Ross McDonald, district com-
missioner. There were also a num-
ber of guide leaders and captains.

Strange Romantic Love Adventures of the Flapper you know!

by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

THE STORY THUS FAR

Joanna, a pretty flapper shop girl is given, by an unknown man, a million dollars to spend as she wishes. Giddy, her employer, bears the message, more than this she will not tell her. She is not to know her benefactor nor his motives. She can learn nothing more from the banker, Eggleston, nor his man-about-town nephew who helps her write her first check and tells her that he intends to make love to her. Dazed by the undreamed of wealth, hurt because her friends and acquaintances will not believe in her, she does some shopping and returning home, happy because of the afternoon of buying long wanted things, she finds Brandon, nephew of her banker, and John, her old-fashioned sweetheart, waiting for her.

CHAPTER VII. A Shattered Dream

For one brief minute Joanna stood at the foot of the stairs, just outside the drawing room door. The eagerness, the exhilaration which had wrapped her face as in an aura, had gone one of it. She closed her eyes tight, the gold of their over-plucked brows making thin, straight lines. She steadied herself with her hand against the newel post. All the doubts, the confusions, the mysteries and the stupendous wonders of the day crashed down upon her. A little while before she had revelled in her own beauty, and in the glory of John's surprise, his ecstasies, all the questions he would ask her and she couldn't answer. They would plan she would be glad with him over every thought of the future either of them could conjure up. There would be no more tempers and insipid quarrels; no more fighting at each other. This time, when he put his arm about her, and kissed her, she wouldn't be restless and wish that he'd take her out into the lights, as other

Arab Women Are Ignored

Men Returning From Journey Only

Great Male Friends

There is not the Canadian thrill of hubby's homecoming for the wife of the unassuming and unexciting Arab. The menfolk return from their sojourns with sober, nearly and faces, kins, brothers and fathers and male friends on the cheek and with never a look at their women, solemnly stalk out of the station.

There is scarcely a peal of laughter, or expression of joy at reunion, and never a smile on the face of the Arabs one meets along the 300 miles of railway.

STANDARD OIL CO. (NEW JERSEY)

wanted to explain it all to you, first.

Unconsciously she put her two hands on his breast—the trick that always turned John's thoughts, whatever they were, into fondness. It was a good trick, Joanna perfectly knew. She could never practice it with anyone but John. He invariably had serious effects. But it didn't work this time. John kept his hands in his coat pockets.

"Yes," he said, his tone cold. "Mrs. Adams told me what you told her. I congratulate you."

The girl started as if she had been struck. The carmine lips quivered. She stared into the brooding eyes that met her's so evenly. As if pleading for light, pleading for someone else to tell her why John was not happy, and eager, and excited with her, she looked across at Brandon. He was standing where she had left him, smiling, confident, watching with a barely restrained amusement. Joanna accused him.

"Have you told him anything? Anything that I don't know?"

Brandon was surprised by this sudden attack. "Mr. Wilmore seemed to know when I came. That is all, I assure you. He says that I have expressed the hope that whatever was behind your unprecedented good fortune it would bring you a great happiness."

John flashed a glance at Brandon, and then spoke to Joanna, his voice still cold. "Whatever there is for me to know, will have to come from you. After awhile, perhaps."

The arrogant doppelgänger came back into the girl's chin. She thanked Brandon, in her self-conscious way, for his flowers. He took possession of her easily, and talked with her as if there were not a third person in the room. Once Joanna, remembering, turned her face, glowing again, to John, who sat, moodily in one of the big red chairs, but he only muttered his reply to Joanna's reply.

Brandon led her to talk about her clothes—the marvelous things she had bought during the afternoon. He understood how to talk about such things, she discovered. He complimented her upon her choice of the frock she had chosen to put on that evening.

"Really, you know, that is why I came this evening," he explained, smiling frankly at her. "I wondered what sort of a change you would make for yourself, in the first few hours of such excitement as must have been yours. It must be very, wonderful, to a girl."

FACE DISFIGURED BY PIMPLES

Large, Hard and Red, Itched and Burned, Healed by Cuticura.

"I was troubled with pimples that broke out on my forehead. They were large, hard and red, and soon scattered over my face disfiguring it. The pimples fastened and itched, which made them worse. The trouble lasted about two months."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After using it I purchased more and now I am completely healed." (Signed) Miss Anna Molnar, R. F. D. 2, Box 55, Toledo, Ohio, Sept. 8, 1925.

Clear the pores of impurities by daily use of Cuticura Soap with touches of Cuticura Ointment as needed to soothe and heal. Cuticura is fragrant and refreshing.

Sample Size Free by Mail. Address: Cuticura, P.O. Box 1024, Portland, Me.

especially a girl who has had so little, to suddenly feel the possession of money—and such unlimited money. If you've ever had dreams you may now proceed to make them come true. Can't you?"

Joanna considered a moment, a frown across her brow.

"I can't escape the feeling that everything is not going to be right," she said. "It is foolish, I know. Perhaps that is because I can't believe things, yet." "Unconsciously she glanced at John, and nodded ever so slightly, at him. He acknowledged the look with:

"The world is made up of things that are hard for some people to believe."

The red came into the girl's cheeks again, red that was deeper than the rouge, and her lips trembled anew. Brandon rose.

(To be continued.)

Giant Passenger Plane

New Under Construction and Will Be Used For Transcontinental Service in U. S.

A giant aeroplane, multi-motored, and providing sleeping accommodations for thirty-eight to forty passengers, is now under construction from designs of Anthony H. G. Fokker, Dutch aeroplane designer and builder. It was learned on the return of Mr. Fokker to New York recently.

Much secrecy has surrounded the construction of this latest type of aeroplane, but it is known that the preliminary work on it has been carried on at the Fokker factory in Amsterdam, Holland. The machine is designed primarily for flying in America, and may be used to inaugurate a transcontinental passenger service between New York and San Francisco.

The fuselage of the plane, according to the present design, is built in two sections, the upper section being made over into sleeping berths at night, very similar to the berths now used in sleeping cars of the Pullman Company. The lower section will be equipped with seats as in a railroad parlor car. The plane will be comparable in conveniences to any first-class sleeping train. No date has been set for its completion, as several alterations in design have interrupted its building schedule.

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of sleep and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

Little Helps For This Week

Pray without ceasing.—I. Thess. v, 17.

More things are wrought by prayer than this world dreams of. Wherefore let thy voice rise like a fountain for me night and day.

For what are men better than sheep or goats? That nourish a blind life within the brain.

If knowing Gook they lift not hands in prayer.

Both for themselves and those who call them friends?

For so the whole round world is every way bound by gold chains about the feet of God.

—Alfred Tennyson.

Prayer is the door forever open between earth and heaven. Sooner than sound can reach a human ear through this lower atmosphere, the longing desire of the spirit rises to the heart of the Eternal Friend. Whether we believe it or not, we are living in an invisible world, where our wishes are understood before our words are spoken.—Lucy Larcom.

Use Minard's Liniment in the stables.

The ministers of agriculture for the six states of the Australian Commonwealth are meeting in June to discuss Australian participation in the World's Poultry Congress. Australia has taken a prominent place in poultry activity, and her laying tests are world renowned.

Two of a Kind

Mr. L. I'll have to let some bills go this month—our grocery bill is something fierce.

Mrs.—Yes, dear, and so is the grocer.

Meadow Larks Halt Train

Meadow larks have appeared in the vicinity of Glenwood City, Wis., in such numbers that the local 800 line freight train was obliged to stop a few miles west of there to avoid running over hundreds of the birds on the track—Milwaukee Journal.

A PERFECT MEDICINE

FOR LITTLE ONES

Baby's Own Tablets Should be in Every Home Where There Are Children

The famous medicine for little ones is found in Baby's Own Tablets. They are a gentle but thorough laxative which regulate the bowels, soothe the stomach; drive out constipation and indigestion; break up colds and simple fevers; promote healthy, refreshing sleep. It is impossible for Baby's Own Tablets to harm even the new-born babe, as they are absolutely guaranteed free from opiates or any other injurious drug.

Concerning the Tablets, Mrs. Alex. J. Perry, Atlantic, N.S., writes:—"I always keep Baby's Own Tablets in the house for the children, as I have found them a perfect medicine for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Epidemics Take Huge Toll

Epidemics, with a toll of 40,000,000 have claimed more lives throughout the world since 1814 than all the wars, and civil strife, since that year, the second Pan-American Red Cross conference was told by T. B. Kitteridge, assistant director-general of the League of Red Cross Societies.

If a man loves a woman he will give up something for her sake, but if she loves him she won't ask it.

The Liberal Convention

The convention in Stony Plain on Saturday which had been called by the Stony Plain Liberal Association was presided over by M. F. J. Franny, who expounded the reason for calling the convention.

A reply was made by Dr. Oatway, who made a statement regarding his action, and stated his present standing.

After some discussion, President Francey called for nominations, and after the ballots had been collected Messrs Oatway, McKinlay and D. Brox were found to be at the top of the list. Dr. Oatway refused to let his name go before the convention, and the contest was between M. Mc-

Kinlay and Dan Brox. On the final ballot, the scrutineer declared M. McKinlay the winner.

On motion, this gentleman was made the unanimous choice of the convention. The candidate made a speech of acceptance, and promised, if elected on June 28, to serve his constituents to the best of his ability.

List of F. W. Lundy's Meetings
Thurs. June 17—Carvel, at Rutherford Hall
Friday, 18—Winterburn, at Community Hall
Sat. 19—Stony Plain, Wuel's Hall
Mon. 21—Bright Bank, at School House
Tues. 22—Tomahawk and Golden Rule.

FOUND—Sum of money in Stony Plain. Apply H. Wolfe, Stony Plain.

Stony Plain and District.

In Stony Plain, May 31, to the wife of Mr. John A. Berry a son.

On Tuesday, May 8, to the wife of Peter Untersehnitz, a daughter.

Another hen-roost robbery has come to light. It is generally suspected the depredations are committed by a chap with a light truck who calls at a farmhouse, buys a few chickens, gets the location of the coop and pays the latter a visit after dark. Poultry-raisers are warned against this chicken hunter.

The hall at Rosenthal was too small to accommodate all who wished to participate in the dance, there Friday night last. The merry crowd had a good time.

While bathing at Edmonton Beach on Sunday afternoon, Sidney Beaton of Stony Plain saw an object in the water which attracted his attention. He picked it up, and found it was a wedding ring lost four summers ago by a lady from Regina, who was visiting at the Beach at that time.

A dance will be held at Coates' Barn, Mewasin, on Friday, July 23. Everybody Welcome. Ladies please bring baskets. Dancing floor 38x100.

Mr. Rudolf Winice this week bought from Mr. J. A. Duval, 240 acres in the Holburn district, for which he is said to have paid the sum of \$5000.

United Farmers' Meeting.

The local hall was crowded to the doors Saturday night when Premier Brownlee rose to give his initial address to the electors in Stony Plain. The Premier dwelt at length on the natural resources question, and gave an outline of the negotiations between his Government and the Government at Ottawa, and proved clearly that the recent hitch in the negotiations for the transfer was not the fault of the statesmen at Edmonton. The Premier gave an account of the efforts his government had made to bring fair railway rates into force for the farmers in this province. He told of the advance which the Dept. of Education had made in the years since 1921, and cited numerous cases which proved his statements.

The speech was preceded by a short address by Candidate Washburn, who gave a resume of his activities during his five-year term in the Legislative Assembly, and asked those present to re-elect him to the Assembly, to help keep up the good work.

NOTICE

IMPOUNDED in the Municipal Pound kept by the Town of Stony Plain—

One Black Steer with white forehead, two years old;
One Red Steer with white forehead, two years old;
One Red Heifer with white forehead, three years old;

and such animals will be sold under the provisions of "The Domestic Animals Act (Municipalities)" within eight (8) days from the date hereof, unless same are sooner redeemed by paying fees and expenses against same.

DATED this Fourth (4th) day of June, 1926.

F. ODENBACH,
Poundkeeper.

Calendar.

June—
18—Nominations for the Alberta Legislature.

18—Dance at Holburn Hall.

22—Garden Party, at Spruce Grove.

23—Grade VIII exams begin.

24—Picnic at Winterburn.

28—Provincial Elections.

July 1—Dominion Day.

1—Dance at Stony Plain.

2—Jim Warner's birthday party at Holburn Hall.

2—Dance at Coates' Barn, at Mewasin.

Dr. Oatway's Meetings

Thurs. June 17—Graminia

Friday, 18th—Mewasin.

Sat., 19th—Spruce Grove

Sat., 20th—Stony Plain

Spruce Grove Notes.

The Ladies' Aid of the Spruce Grove Union Church are holding a garden party and sale of work on Tuesday June 22, 7 p.m., on the lawn of Mrs. Baker and Mrs. Sherwin, Spruce Grove. Everybody welcome.

A big McLaughlin car broke a wheel Sunday morning at the Buerlein railway crossing. Dave Bell gave first aid.

Work was started this week on the foundation for the new residence for the pastor of St. Joseph's church, on the church grounds. The building will be a substantial affair, and will consist of six rooms.

Politics are beginning to warm up now, and several daily orations are being given on Railroad avenue to those who wish to listen.

St. John the Baptist's Day (June 24) will be celebrated by a big picnic at the Winterburn grounds, with a concert in the evening, in the fall.

Pard Meredith, the well-known hog buyer, has taken up his residence at the Grove, and is buying hogs every day.

At a meeting held in the Hotel Tuesday evening to arrange for the annual picnic, no decided action was taken, but it is probable the event will be held on Wednesday, July 7th.

Mr. Lundy, the Conservative Candidate held a meeting Tuesday evening in Schwindt's Hall, at which Mr. A. F. Riving, the Conservative leader, gave a very able address, touching on all the principal questions before the electors at the present time. Mr. Lundy gave a short address, winding up with an appeal to the electors to cast their ballots for him on the 28th.

The Spruce Grove Public School baseball team visited Stony on Friday last, and engaged a team consisting mostly of High School players; and were successful, hitting Mohr all over Stony Plain. The whole Grove team was so good that the Selkirk offered a handsome amount for them, especially for the pitcher and first baseman. The final score was Spruce Grove 7, Stony 4.

Grove lineup—W. Brox p, C. Brox c, C. Eschlich of, A. James lb, A. Guellet 2d b, J. Bernesa, L. Louis 3d b, H. Schram 1f, E. Schram p.

Here and There

Total trade of Canada during April, 1926, amounted to \$127,968,121, as against \$119,014,028 in the same month last year and \$109,064,955 in April, 1924. Of the total \$7,801,283 was for imports and \$59,166,886 for exports.

Immigration figures for the first three months of the current year show an increase of 163 per cent over similar period for last year. Total number of immigrants entering country was 21,949 for 1926, as against 10,792 for 1925.

Production of manufactured non-metallic mineral products in Canada in 1925 reached a value of \$115,887,816, an increase of almost 45 million dollars over 1924 and the highest since 1920 for this group of industries. The operating plants in these industries in 1925 represent an invested capital of 159 million dollars.

Remarkable expansion of the cream export industry of the province of Quebec is disclosed by figures of the Dominion Express Company furnished recently. In May three to four carloads, or about 614,400 pounds of cream were going every week, while in June an average of a carload a day, 153,000 pounds, was predicted.

Tomatoes weighing over 22,600 pounds travelled across Canada by Dominion Express recently, constituting the largest load of hot-house tomatoes ever shipped out of British Columbia. Handled in a single express car, the shipment was the product of the Victoria Hot-House Association, which represents the majority of the tomato growers on Vancouver Island.

R. W. Beatty, Chairman and President of the Canadian Pacific Railway, left recently for England and the continent, for a trip which is to last several weeks. Mr. Beatty, accompanied by W. R. MacInnes, Vice-President of Traffic, will complete arrangements for the building of the company's two new ocean liners for the Atlantic route while in England.

One minute after midnight of May 31st, 104 miles of the Lyndonville subdivision of the Boston and Maine Railway was taken over on lease by the Canadian Pacific Railway. Close to the international border and running through Vermont, the railway line will tap rich consumer and producing sections of Connecticut, Massachusetts, New Hampshire and Vermont.

Rockballasting of 44 miles of double track of the Canadian Pacific Railway lines between Brockton and Montreal West, on the main line to St. John, Que., and Sherbrooke, should be completed by September. The effect of the rock will be to strengthen the tracks, eliminate dust and ensure smoothness of travel. C.P.R. tracks between Quebec and Ottawa, and Montreal and Toronto have already been rockballasted in Eastern Canada.

The Trans-Canada Limited C.P.R. all-steel flyer from Montreal to Vancouver resumed her yearly summer season trips on May 16 when she pulled out of Windsor Station, Montreal, filled to capacity, the ten compartments, three drawing rooms and all sleeping berths having been booked some days prior to starting. The Trans-Canada Limited is the longest-distance all-steel train operated on the North American continent.

Charles E. S. McPherson, assistant passenger traffic manager, Western Lines, Canadian Pacific Railway, recently celebrated the 50th anniversary of his entrance into railway circles. He started in the ticket office of the Grand Trunk Railway, at Toronto, as junior clerk. Completing 40 years of service with the C.P.R., Mr. McPherson has served in Toronto, Niagara Falls, New York, Montreal, Boston, Saint John, N.B., and Winnipeg.

Vote for Progress!

The need of Alberta is for a government elected solely in the interests of the people of Alberta, not to gratify party ambitions, nor to supply jobs for party workers. A system that sets farmers against each other on opposite sides of the Legislature is not in the economic interest of the people of the province. Every other industry and profession in Alberta is rightly organized for its own social and economic welfare, and puts forward all the political pressure it possibly can.

Remember what happened in Alberta under the party system, the printing scandal, the railway mudslide, the Athabasca and Peace River elections, the patronage distribution of the taxpayers' money for jobs and public works, etc.

Here are a few comparisons between the party system and the U. F. A. system of business government:

Lund Titles Office Costs, 1921 \$241,000, 1925, \$156,753; Election Costs, 1921 \$248,000, 1923 (Prohibition) \$133,000, 1926 Election Estimate, \$139,000. Reductions in controllable expenditure, 1921 to 1924 inclusive, Alberta 14 per cent, Saskatchewan 12 per cent, Manitoba 8 1/2 per cent; all other provinces increases. Cost of educating 320 agricultural students—1921 \$191,000, 1925 \$103,000 for 390,000 students.

A Vote for U. F. A. Candidate is a Vote for Efficient and Impartial Administration

Issued by the U. F. A. Publicity Committee, Calgary.
